Joomla!

Congratulations! You have a Joomla! site! Joomla! makes it easy to build a website just the way you want it and keep it simple to update and maintain.

Joomla! is a flexible and powerful platform, whether you are building a small site for yourself or a huge site with hundreds of thousands of visitors. Joomla is open source, which means you can make it work just the way you want it to.

Beginners

If this is your first Joomla site or your first web site, you have come to the right place. Joomla will help you get your website up and running quickly and easily.

Start off using your site by logging in using the administrator account you created when you installed Joomla!

Upgraders

If you are an experienced Joomla! 1.5 user, this Joomla! site will seem very familiar. There are new templates and improved user interfaces, but most functionality is the same. The biggest changes are improved access control (ACL) and nested categories. This release of Joomla! has strong continuity with Joomla! 1.6 while adding

Professionals

Joomla! 1.7 continues development of the Joomla Framework and CMS as a powerful and flexible way to bring your vision of the web to reality. With the administrator now fully MVC, the ability to control its look and the management of extensions is now complete.
