Nick: Alright. That's a good one. That is a surprise, because I thought if you eat loud, you'll get like *(Whistles)*, like this, you know? *[use hands to indicate a big fat girl]*
But you're quite skinny, like a giraffe.
Olya: *(Giggles)* *[Surprised tone]* A giraffe?
Nick: OK, that's good.

The first thing to note is she accepts my compliance test and begins qualifying, which is a good sign that she's happy to surrender the frame. She does this mainly because I've spiked her mood, and she's having a good time, so she wants to play along and get more happy-feels. She gives in to my the "secret" theme which is great, saving me from needing to introduce it myself. When a girl qualifies to you early in a date, you do not empathise with her, but rather use it as more ammunition to tease her because you're still establishing the man-woman frame. Later, you'll move into rapport and take her more seriously. Note how I immediately run with her admission to visually frame her as a naughty girl, scoffing food under the duvet and hammer it home by saying she's a bad daughter. Her response is giggles and eye sparkles, so I throw in my first gentle sexual spike to talking about her body.

We are only a couple of minutes into the date, but I've already neutralised her frame-push and instead established my own frame. She is having a great time and realises I'm a potential prospect for adventure sex. There's still a long way to go before actually sleeping with her, but don't underestimate the importance of starting off on the right foot. In just a couple of minutes, you can achieve goals one to three of the plan.

Now we'll consider Diana, who gave a less testy initial response. My basic plan is the same, which is to briefly say hello and then immediately snatch the conversational thread and begin some creative rambling and a few light frame-pushes. This date was four pm in a small, busy cafe after she finished classes. She was already sitting down at a small table when I entered.

Enters café
Nick: *[Slightly surprised tone]* Ah, there you are!
Diana: Yeah.
Nick: You look very different. Are you sitting here?
Diana: OK. I just came here.
Nick: Oh, yeah, well as you saw I literally just arrived. Oh, my mind is a little bit... I didn't sleep well.
Diana: Me too. *(Giggles)* And why haven't you slept?
Nick: Oh, I had a bad dream. *[Quietly]* How can I describe it? You know some days you get very vivid, very bright dreams, right, for whatever reason?

Diana: Yeah.
Nick: For whatever reason, most dreams are normal, right? I had this dream yesterday, and I don't know why, but I dreamt that I was in an old European house in Paris. Big house, during the war, and the Germans were attacking the house, the Wehrmacht, with little guns. I was the only defender, so I was protecting the house with guns, grenades. It was really strange, it was like being in a video game but real, and so I woke up in the middle of the night and I got up and I was like *(indicate looking around confused)* 'ah, it's a dream, OK' *(Diana giggles)* and then for half an hour I was, pfft *(shrugs shoulders)* So, yeah, that was my little adventure.
Diana: *(Giggles)* *[Surprised tone]* Oh!
Nick: So how about you? What's your excuse for being tired?
Diana: *(Flipping through menu)* I wrote my coursework, so that's why. *(Giggles)* I also, I spent maybe four or five hours sleeping.
Nick: Was that too much nightclub?
Diana: No, no, no.
Nick: Partying?
Diana: *(Giggles)* No, I don't like.
Nick: Oh, you're really a bad girl are you? *[Dryly]* Oh my god. Oh my god.
Diana: What?
Nick: I thought you were a good girl, and you're saying you were up all night.
Diana: I'm a good girl.
Nick: Promise?
Diana: *[Not understanding]* What?
Nick: *[Clearer]* You promise?
Diana: Yes.
Nick: Pinky promise? *(we link little fingers in a pinky promise)* OK. I believe you. I love this fashion. *(indicate her dress and bracelets)*
Diana: *(Giggling)* Thank you.

The German dream story was my quick ramble (point two in the *Coffee Date Plan*), and as soon as she gave me an opening I accuse her (unfairly) of being a bad girl. The purpose isn't to frame her as a bad girl but to enter a *roleplay* about her being a bad girl. It will provide an opportunity for callback humour later and covertly conveys that I'm intending to unlock her naughty side, and I also won't judge it. So, it's more like an invitation than an accusation. Diana plays along, so I compliment her fashion as a reward, which also functions as changing the topic (a **snip and stack**), showing I will direct the interaction. I now hold the conversational reins, which suits Diana just fine. There's no danger of this petering out into aimless chit chat.

Snip and stack

Rather than allow a conversation to drift towards an unhelpful topic or vibe, you can cut it short (snip) and then begin talking about something completely different (stack). Girls rarely mind the abrupt change in direction.
